**Hamilton Laboratory Solutions Procures Assets of
the Hamilton Scientific Laboratory Furniture & Fume Hoods Business**

Acquisition Revives the Prominent Hamilton Brand

Manitowoc, WI – Hamilton Laboratory Solutions recently announced it has acquired the assets of the laboratory furniture and fume hood business of Hamilton Scientific, whose corporate office had been based in De Pere, Wisconsin. Hamilton Laboratory Solutions acquired all Hamilton Scientific IP (intellectual property), and terms of the transaction were not disclosed.

Hamilton Laboratory Solutions is a leading supplier of laboratory furniture and fume hoods for the education, health care and industrial markets. The company proudly declares its allegiance to the legacy Hamilton name which was established in 1880 and was renowned for exceptional craftsmanship of all products manufactured at the Two Rivers plant.

Steve Pribek, President and CEO of Hamilton Laboratory Solutions, commented “We are very excited to reestablish our fine dealer relationships throughout the US and internationally. Ensuring continuity for our customers’ current and future projects and reviving the highly respected name in the educational, health care and industrial markets was the driving force behind the purchase. We intend to continually invest in our business as a recognized leader in the laboratory furniture and fume hood industry.”

Hamilton Laboratory Solutions is a global leader of laboratory furniture and fume hoods for the education, health care and industrial laboratory markets. Founded in 1880, Hamilton Laboratory Solutions offers consistently high quality products to meet customer delivery requirements. For more information, please visit www.hamiltonlab.com.
